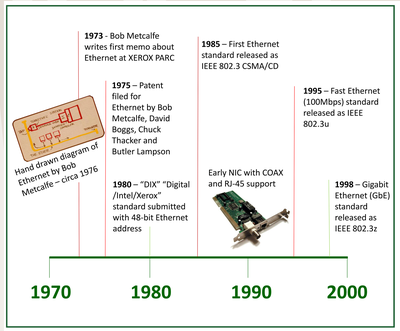
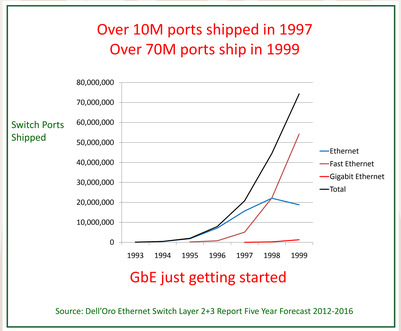
1970-1990's Ethernet Grows with the Internet

The Early Years of Ethernet Standards

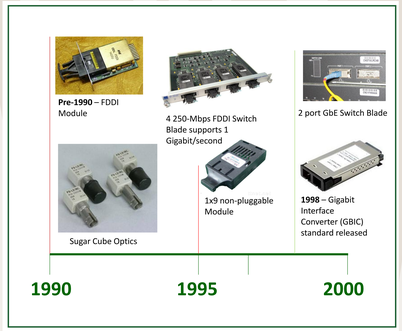


Fast Ethernet Dominates

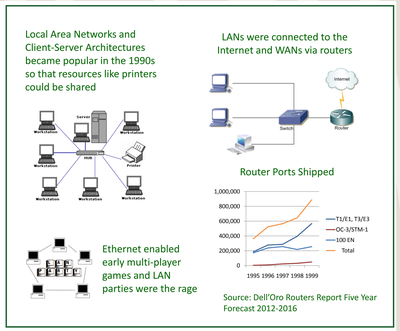


Source: Dell'Oro Ethernet Switch Layer 2+3 Report Five Year Forecast 2012-2016

Early Years of Ethernet Optics

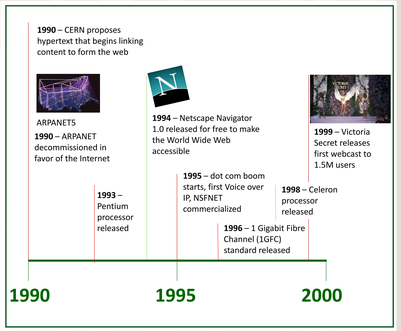


Small Scale Applications to Start



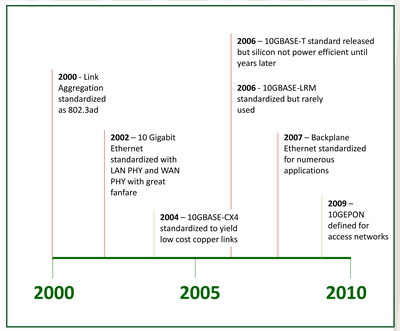
Source: Dell'Oro Routers Report Five Year Forecast 2012-2016

The Internet Goes Public

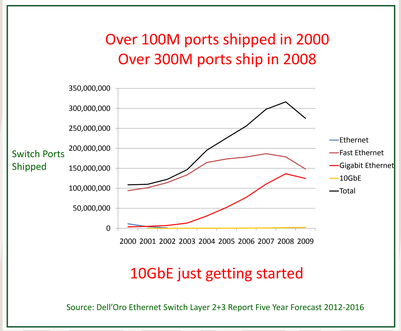


The 2000's Ethernet Proliferates

10GbE Standards Come to Life

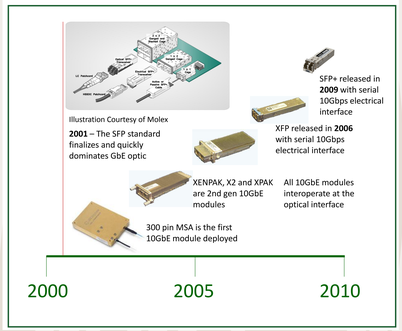


Gigabit Ethernet Takes Off

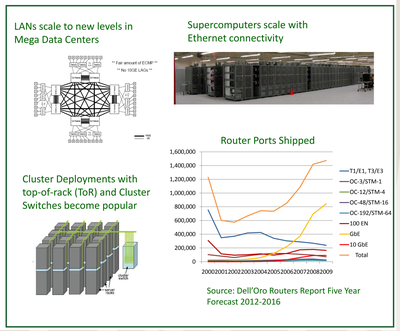


Source: Dell'Oro Ethernet Switch Layer 2+3 Report Five Year Forecast 2012-2016

Ethernet Turns to SFP+

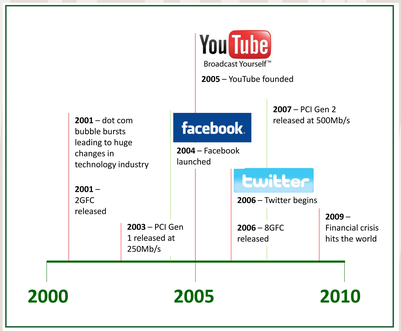


Applications Grow in Multiple Directions



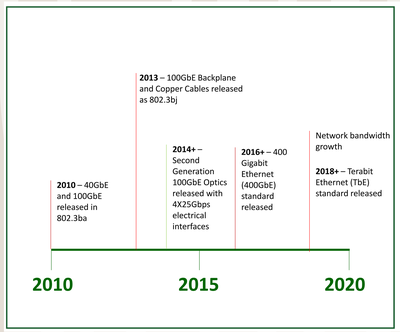
Source: Dell'Oro Routers Report Five Year Forecast 2012-2016

Social Media Takes Off

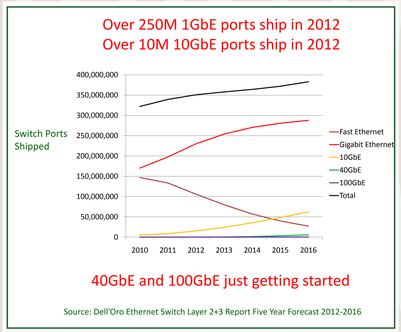


The 2010's 40GbE and 100 GbE Mature

40GbE & 100GbE Standards Emerge

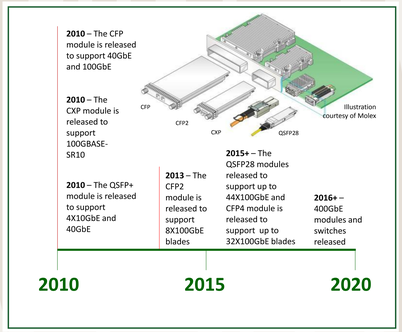


GbE Dominates & 10GbE Rises

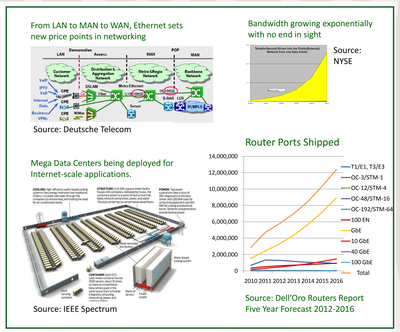


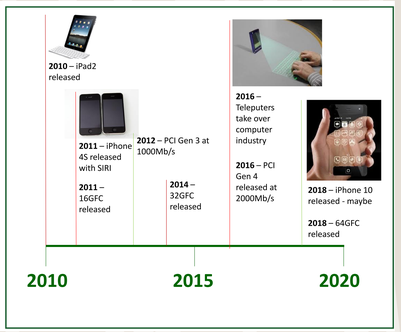
Source: Dell'Oro Ethernet Switch Layer 2+3 Report Five Year Forecast 2012-2016

40GbE & 100GbE Modules



Applications & Data Centers Go Mega





The Internet Delivers HD & Goes Mobile
